

## Working with your child's therapy and education team

Learn. Share. Create.

### Let's explore how to achieve outcomes through working collaboratively

It's easier to reach your child's goals when professionals and families work together in partnership. The best partnerships are those which respect the unique knowledge that families have but equally, respect the knowledge and guidance of professionals.

Do you have a plan or framework on how to do and or measure that? How do we as families lead this collaborative relationship?

Come along to discuss and explore:

- » Getting clarity about what Achieving Better Outcomes means
- » Helpful ways to communicate with your child's team
- » Ideas to help you stay focused and organised on the goals you are working on
- » Practical tips to achieving therapy and education goals with or without funding
- » Your important parental role in the Working Better Together relationship

Best of all, we will share with you tools to guide and help you put these plans into action for your child and family!

The Let's talk about... series is for parents by parents of children with disability, developmental delay or neurodivergence.

#### Cost

Free

#### Time

Thursday 26 November  
8pm to 9.30pm AEDT (1.5 Hours)
