

Towards Toileting Independence

for children with disability or developmental delay

Developing independence with using the toilet is a milestone for children which involves a range of motor, language and thinking skills. This workshop is an introduction to toilet training and an initial problem-solving session for families who are preparing to begin toilet training.

Please note: If you are a family with a school-aged child who, after many attempts, is still not toilet trained, you may require more intensive support or the services of an incontinence nurse. It is not likely this workshop will be of assistance as it is an introductory workshop.

For more info: Continence Foundation of Australia
1800 330 066

Come along to learn about:

- Parent and child readiness
- Skills needed for toilet training
- Environmental factors to consider
- The importance of staying positive

Cost
Free
